Key Learning Indicators of Performance

English - Reading

Guidance for Using KLIPs:

English

These materials have been written by Lancashire Professional Development Service (LPDS) Teaching and Learning Consultants for Primary English in conjunction with the aims and statutory requirements set out in the National Curriculum 2014.

What are the KLIPs?

The KLIPs, or **Key Learning Indicators of Performance**, have been developed from Lancashire's National Curriculum Support Materials, which detail the key learning in reading and writing for each year group. These key learning grids for each year group can be used to provide:

- ▶ detailed assessment information for the teacher to use to inform their future planning of next steps (formative);
- ▶ overall judgements which can be made more summatively (for example once a term), to enable senior leadership teams to track progress across the school, during the year. This will assist schools with self-evaluation and in informing discussions with others e.g. inspection teams, about attainment and progress;
- ▶ a means of informing parents about attainment and progress.

The underlined statements on the grids have been identified as **Key Learning Indicators of Performance** (KLIPs) as these have the greatest impact on the further development of skills and subsequent learning. Consequently, the **Key Learning Indicators of Performance** (KLIPs) play a particularly significant role in the assessment process.

How Do I Use KLIPs to Support Assessment in English?

The KLIPs approach is intended to be used for periodic assessment, in other words 'stepping back', perhaps termly, and asking the question 'How is this pupil performing in reading?' or 'How is this pupil performing in writing?'

The Process

- ▶ Consider the pupil's performance in relation to **all** of the key learning statements not just the KLIPs (the ones which have been underlined).
- ▶ Make a professional judgement as to whether the expectations have been achieved, highlighting statements, or partial statements to record judgements. If statements are highlighted termly, consider using different coloured highlighters each term to indicate where progress has been made.
- ▶ A child does not need to demonstrate an aspect of key learning a specific number of times for them to be assessed as having achieved it. However, they would be expected to **demonstrate and apply** the skill or knowledge **independently in different subjects or contexts**.
- ▶ When assessing writing, consider a range of evidence including narrative writing, non-fiction and pieces completed in other subjects. Think about the child as a writer; how effective is his/her writing in relation to its purpose and audience? Avoid merely 'spotting techniques' used, or using the key learning grid as a checklist.
- ▶ Assessing reading involves examining pupils' competence in both word reading and comprehension. Rich opportunities to gather evidence include guided reading sessions, phonics sessions, shared reading, drama, and use of reading journals. Look out also for wider opportunities to gather evidence such as reading in other subjects, class assemblies and personal reading. Texts need to be suitable for the age-related grid which is being used. For example, if a Year Three key learning grid is being used, texts would need to be Year Three appropriate.
- ▶ Assessment information, highlighted on the grids, should be used to inform the teacher's planning so that gaps and next steps can be addressed.

Making a Summative Judgement Using the KLIPs Approach

- ▶ Make a judgement about the child's current position in learning, based on a balance of strengths and aspects that need further learning opportunities. Consider whether the child is 'on track' to achieve the year group expectations by the end of the academic year.
- ▶ The three definitions used here are offered as guidance to teachers making 'best fit' judgements, at the end of each term:
 - **Entering** - starting to demonstrate some of the features of this year group's expectations (although these may not yet be evident in independent writing). Typically what would be expected if a child was on track at the end of the autumn term in a particular year group (e.g. a child typically working at what you would expect, at end of autumn term Y3, would be 'entering, Y3').
 - **Developing** – demonstrating more of the features of this year group's expectations. Some learning in some aspects might not be fully embedded across all situations. Typically what would be expected if a child was on track at the end of the spring term in a particular year group (e.g. a child typically working at what you would expect, at end of spring term Y3, would be 'developing, Y3').
 - **Secure** - demonstrating most (or indeed all) of the features of this year group's expectations. To attain a secure judgement, the child must have achieved all of the **key learning indicators of performance** (KLIPS, underlined statements) unless they have a specific learning difficulty that prevents them from doing so. Their typical knowledge/understanding/skill demonstrated is behaviour which is **embedded**. Typically what would be expected if a child was on track at the end of the summer term in a particular year group (e.g. a child typically working at what you would expect for a typical child at the end of Y3, would be 'secure, Y3').
- ▶ There are no set percentages or numbers of statements which need to be highlighted in order to determine whether a child is entering, developing or secure in relation to a particular age group expectation. Profiles of children judged to be 'developing' for instance could be very different.
